

UPGRADE FOR NEW & EXISTING LIQUID RING COMPRESSORS

GARO® Enhanced Bearing Barrier Kit

Give your compressors a new life with the exclusive GARO Enhanced Bearing Barrier Kit, designed to prevent the ingress of contaminant and the egress of lubrication.

Many benefits in one tool!

- Prevents oil leakage
- Prevents dust from being introduced to the system
- Enhances oil sealing system thanks to the extraordinary oil splash effect
- Increases unit reliability and product life expectancy
- Reduces necessity of inspections
- Increases MTBM
